KLIFF EMMANUEL JASME

Junior Software Developer | Web & Application Development

Consolacion, Cebu, Philippines | 09924684380 | jasmekliffemmanuel@gmail.com
github.com/kliff-dev

PROFESSIONAL SUMMARY

Computer Engineering graduate focused on web and application development, with hands-on experience building business and academic web, desktop, mobile, and IoT applications. Uses JavaScript, C#, Flutter, Supabase, Firebase, and SQL to build features, integrate systems, and adapt software to changing requirements.

WORK EXPERIENCE

Web Developer

Independent Projects

- Built responsive web applications across multiple independent projects using JavaScript, HTML, and CSS.
- Implemented authentication, database integration, and CRUD features using Supabase and SQL.

Technical Staff Intern | Microlinx Solutions Inc.

May 18, 2025 - June 23, 2026

- Assembled and configured desktop systems; installed Windows, drivers, and software applications.
- Diagnosed and resolved hardware and software issues.

PROJECTS

Bellton Heavy Equipment Rental | Live Site

Independent Client Project | 2026 | HTML, CSS, JavaScript, Supabase, Netlify

- Built and deployed a responsive rental web app with quote calculations, authentication, inquiries/history, and admin features; adapted the system to changing rental policies.

Task Management Desktop Application | *C#, WPF/XAML, MySQL*

- Built a desktop application to create, organize, update, and manage tasks, with CRUD operations and MySQL-backed data persistence.

LuxLock Biometric Security System (Capstone) | *Flutter, Dart, Firebase, ESP32, IoT*

- Integrated fingerprint authentication, ESP32 controllers, Firebase, and a Flutter mobile application.
- Implemented multi-case access control, device monitoring, event logs, master override controls, and tamper alerts.

TECHNICAL SKILLS

Languages: JavaScript, C#, C++, Dart, Python, HTML, CSS
Frameworks / Platforms: Flutter, WPF/XAML
Databases / Backend: SQL, MySQL, Supabase, Firebase, Authentication, CRUD, REST APIs
Tools / Deployment: Git, GitHub, VS Code, Netlify, Browser DevTools
Additional: Responsive Web Development, ESP32, Arduino, IoT, Linux and Networking Fundamentals

EDUCATION

Bachelor of Science in Computer Engineering

University of Cebu - Banilad Campus | 2021-2026

SELECTED ACHIEVEMENTS

- ICPEP Regional Competition - C++ Programming Participant
- College Intramurals Mathematics Quiz Champion - Back-to-Back Winner
